User Story Acceptance Criteria Example

Example:

As a conference attendee, I want to be able to register online,
so I can register quickly and cut down on paperwork

The acceptance criteria could include:

- ❖ A user cannot submit a form without completing all the mandatory fields
- ❖ Information from the form is stored in the registrations database
- ❖ Protection against spam is working
- ❖ Payment can be made via credit card
- ❖ An acknowledgment email is sent to the user after submitting the form.

User Story Acceptance Criteria Example

 **As a staff user, I need the ability to invite members to the site**
in list [In Progress](#)

 [Edit the description...](#)

☒ **Acceptance Criteria** [Delete...](#)

0%

☐ there is an input box in the navbar for all staff users that takes an email address

☐ hitting "invite" button or typing "enter" after entering an email address should do the invite without taking me to another page

☐ i should get a confirmation message somewhere on whatever page i am on that the invite was sent by the server

User Story #1

Title: Search for groceries

Description: As a user, I want to be able to search for an item to add to my grocery list.

Acceptance Criteria:

1. The user must be directed to the next activity with a search bar when he/she clicks on the floating button on the grocery list page.
2. When the user types in a grocery item that he/she would like to add to his/her grocery list in the search box, there must be an auto-complete function that list out the most relevant items.
3. When the user clicks on the "Search" button, all the results that matches the search keyword must be displayed in a list on a new screen with an "Add" icon button next to each row.

User Story #2

Title: Add grocery items to grocery list

Description: As a user, I want to be able to add an item from the search results to my grocery list.

Acceptance Criteria:

1. When the user tap on the "Add" icon button of a row from a list of search results to add to the grocery list, there must be a pop-up message to inform the user that the item is successfully added.
2. The item that has just been added must appear as the last item of the user's grocery list.

User Story #3

Title: Remove grocery items from grocery list

Description: As a user, I want to be able to remove an item from my grocery list.

Acceptance Criteria:

1. When the user swipes a row item from the grocery list to the left, there must be a bin icon for user to tap on to remove the item.
2. After the user tap on bin icon, the item should be removed from the list.
3. The item that has been removed must permanently disappear from the user's grocery list.
